

Regular Mesh Grating

Our Fibre Reinforced Polymer (FRP) grating and anti-slip products are ideal for many agricultural applications. Our FRP products provide slip resistance, are easy to maintain, and are durable and long-lasting.

“FRP is such a good product because it’s just so practical. Timber and chicken netting works until, after a while, it gets a build-up of moss and slime over it. But not FRP – it never becomes slippery. I’ve found a lot of ways I can use it on the farm, like hanging grating from gates. Lambs can’t get through it, and I don’t have to think about replacing it.”

– Bay of Plenty-based customer

Product Solutions

Replace timber flooring inside a sheep shed or calf pen with Mini Mesh Grating for a durable, long-lasting solution that does not soak up liquids and is easy to wash down. Or install Flat Sheet on ramps for an improved, non-slip walkway surface. With a cutting service available, and non-standard sizes and finishes, we can provide a solution for most applications.
